

# PrEP STUDY

---

**DISCOVER** is a new clinical study for cis men and trans women who have sex with men or trans women. This study is to evaluate if a once-daily investigational medicine can help reduce the risk of getting HIV infection from sex ("PrEP", or Pre-exposure Prophylaxis).

---

**TO BE ELIGIBLE:**

- You must be at least 18 years of age
- You must be HIV negative

If you are accepted into the **DISCOVER** study, you will receive study-related exams, lab tests, and study medicine at no cost.

For more information, please contact:

**Tessa Swigart**

**DISCOVER** Research Study Coordinator
